The Standard AND RIVER PLATE NEWS.

No. 1377—Sixth Year. BUENOS AYRES, SATURDAY, SEPTEMBER 8, 1866. Circulation 2,500.

MAUA BANK,
CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank :—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a.m. till 3 p.m.

P. P. Maua & Co.
WILLIAM LESLIE.

Sheep and Land.
A CHANCE FOR YOUNG MEN.

An old established Sheepfarmer has 6000 sheep and a troop of cows and mares which he will sell with the contract of a league of prime land till 1876 either in one lot or in fractions. The estancia is about 50 leagues from town, and the land well watered and with good pasturage.

There are 6 puestos with comfortable houses and good corrals. This is an excellent opportunity for young men with capital who may be anxious to start as sheepfarmers. Persons treating must either pay cash or give good security.

For further particulars apply at Wells & Peyredieu, 170 calle de las Piedras, between 9 a.m. and 5 p.m. 44 | 1m,a9

To Sheepfarmers.
A SPLENDID OPPORTUNITY.

To Rent, Two and a Half to Three Suertes of Magnificent Camp, on the south coast of the Rio Negro, Banda Oriental. Ten thousand fine Sheep, on the place, to be sold cheap and on easy terms; 5000 additional will be given on halves if required. For further particulars apply to

VERE PACKE,
Camp Agent and Broker,
No. 239 Calle Cerrito, Montevideo.

75 1m,a14

To Parents and Guardians.

An opportunity is offered to those who wish their families instructed in the art of drawing, by Mr. Boggs, 122 Calle Bolivar, who will give lessons in the evening at their residences. Apply, by letter or otherwise, to the above address.

135 | 1m, a24

DENTIST.
275—Rivadavia—275.

Dr. Cornwall, the American Dentist, is prepared to perform operations for the preservation of the teeth and relieving pain, such as filing, extracting, cleaning off tartar, &c. He has constantly on hand an inexhaustible supply of the best incorruptible mineral teeth, which he inserts at short notice, without pain, from one to a whole set, to the great satisfaction of all who seek his services. Office, 275 Rivadavia.

Perfect Security from Burglars or Fire,

Can only be obtained by having George Price's treble and quadruple Patent Prize Medal Safes, fitted with his Patent Case hardened, drill and screw proof doors and his "ne plus ultra" Gunpowder Proof Locks which have successfully defied the efforts of the most expert London and Manchester "Cracksmen."

"Case hardening" as applied to these Safes renders the metal many times harder than the hardest steel ever used, thereby destroying the cutting edge and rendering utterly unoperative every description of burglars tools and implements however powerful or ingeniously constructed.

The above Safes can be seen and price lists obtained by applying to

JAMES SEMPLE & CO.,
Calle Chacabuco Nos. 81 & 83.

G. Price's Gunpowder proof unpickable Bank door locks, as also patent locks for all purposes.

Commercial College of Santa Lucia

750—Calle Buen Orden—750.
FOUNDED BY MR. PONGERARD.

The undersigned, director of the above College, begs to call the attention of Parents and Guardians to the programme of education peculiar to the Establishment.

INSTRUCTION.

The method of education may be considered three-fold: Literary, Moral, and Physical. The object of the Institution being to prepare youths for commercial pursuits, our system is after the model of the best colleges of Europe. The programme of studies included in the ordinary pension comprises:—

English, French, Spanish, German, Latin; Arithmetic, Algebra, Geometry; Penmanship, Book-Keeping; Ancient and Modern History and Geography, and Religious Instruction.

Extras—Music, Singing, and Drawing.

We spare no pains by theory and practice to attain the great end of a mercantile education, viz., a perfect knowledge of the living languages, as well as arithmetic, keeping of books, writing letters, acquiring the various currencies of the country and accurate ideas of its history and natural features.

As regards physical advantages, the situation of the College is favorably known for pureness and salubrity of air over all other city schools. The spacious buildings are judiciously distributed, with a view to convenience. The dormitories, study and recreation halls, class-rooms, refectory, library, &c., are admirably adapted for the comfort and well-being of the pupils.

A strict watch is kept over the morality and application of the children, and their conduct is always under close surveillance. Simple and easy principles of rectitude are gradually impressed on their minds, to lead them up in the love and practice of every moral and social virtue.

C. PARKINS, Director.

"THE QUEEN"
FIRE AND LIFE INSURANCE COMPANY.

CAPITAL, £2,000,000.

INCOME, £160,000.

LIVERPOOL AND LONDON.

Insurances against loss or damage by fire may be effected with this Company on Dwelling Houses, Warehouses, Buildings, Merchandizo and Goods in the Custom-house, Bonded Stores, and private ones, Produce in the Barracas or in Deposit Stores, in the Lighters or on Board; and on nearly every description of property.

Rates of premium vary according to the nature of the risks, and will be found as moderate as those of other first-class offices.

Losses by Explosion of Gas paid for. Loses by fire arising from lightning made good.

The advantages obtained by those who assure with the "Queen" are fully mentioned in the prospectuses. Life Policies are indisputable; advances to policy holders, &c. The "Queen" enoys to so great an extent the confidence and support of the public in England that the Postmaster-General has selected it, for the insurance of the lives of the clerks and other officials.

The undersigned General Agent of the Queen Fire and Life Insurance Company is duly authorized by power of attorney to issue policies and to settle and pay losses in Buenos Ayres with promptitude and liberality, without reference to the chief office in England.

Official registration has been entered in the Registro Publico, in accordance with the existing laws of this Republic.

Apply for Insurances and other details from 11 to 3 daily, No. 121 Calle 25 Mayo, corner of Corrientes, to

CONSTANT SANTA-MARIA,
General Agent of the Company.

COLISEUM.
THIRD AND LAST SUBSCRIPTION CONCERT,
GIVEN BY
JOHN HORACE REINKEN,
With the object of raising the elements to establish a weekly 'Reunion,' under the title of 'La Sociedad Filarmonica de Buenos Ayres.'
A large number of native and foreign ladies and gentlemen have kindly tendered their valuable assistance, with the object of realising this idea.
The Concert will take place on Tuesday evening, September 18; 1866. Doors open at Seven o'Clock; concert to commence at Eight o'Clock precisely.

PROGRAMME.

First Part.

Overture from the opera 'Alessandro Stradella'	Flotow
Chorus from the opera 'Giovanna d'Arco'	Verdi.
La Barcarola, for soprano, sung by Miss Teresa Ortega	Guercia.
Fantaisie de Concert, from 'Lucia,' for piano, four hands. Executed by Miss Sofia Zabalia and Mr. Albert Bussmeyer	Prudent.
Terzetto from 'Il Lombardi,' sung by Mrs. Leite, Messrs. Zineroni, & Salonnone Pietro	Verdi.
La Carita, soprano solo and chorus, sung by ladies. The solos sung by Miss Ramona, Sanchez, and Miss Giovanelli	Rossini.

Part 2nd.

Overture, 'Freischutz'	C. M. v. Weber.
Cavatina from 'Lucia' (ancor non giunse, ahi lassa!) for soprano, sung by Mrs. Garay de Mantels	Donizetti.
The Calm of the Sea; and Happy Voyage.' A symphonic Cantata	L. v. Beethoven.
Fantaisie de Concert, from 'Rigoletto,' for Piano. Executed by Miss Leite	Prudent.
Duettino 'Notturno,' for two sopranos, sung by Miss Dolores Costa and Miss Laura Rosen	Campana.
Sestetto and Chorus Finale of the 2d act from 'Lucia.' The solos sung by Miss Sanchez and Miss Giovanelli; Messrs. Miles, Salomone Pietro, Calvo, and Reinken	Donizetti.

3rd Part.

Overture, 'William Tell'	Rossini.
Finale of the 2nd Act, from the opera 'Oberon.' The solos sung by Miss Sanchez and Mr. Calvo	C. M. v. Weber.
Air from the 'Sonnambula,' sung by Miss Sanchez [by particular request]	Bellini.
Grand Caprice Hongrois, for two Pianos. Executed by Miss Arminda Escobar and Mr. Albert Bussmeyer	Ketterer.
Duo from 'Norma,' sung by Mrs. Leite and Miss Sanchez	Bellini.
Chorus from the opera 'Nabuco'	Verdi.

The orchestra consists of 40 performers, professional and amateur.
Tickets, $50 each; can only be obtained at Messrs. Mackern's Library, Calle San Martin, No. 44.
Mr. Reinken requests those persons who are holders of the 'Abono' or 'White' Ticket for the three concerts to hand same to Messrs. Mackern, who will substitute a coloured one for the above Concert, the white ticket being by this measure rendered useless. s2

SATURDAY, SEPTEMBER 8, 1866.

THE CREDIT OF BUENOS AYRES.

There is probably not another country in South America which has enjoyed a better credit in the London money market than the Province of Buenos Ayres; its bonds have, even in the most critical times, held a very high quotation, and, happily for this country, some men of high influence and position at home have taken such an interest in Buenos Ayres that whenever any slanders were heaped on the River Plate they manfully stood up in our defence and refuted the calumnies.

This high reputation which Buenos Ayres enjoys was not earned in a day, it took years to create, and not unfrequently cost the country much to maintain; but our public men very properly viewed no sacrifice too great, to meet religiously the engagements of the country abroad, and cost what it might, and no matter how unfavorable the rate of exchange, the obligations of the country were always covered. Oftentimes we have remarked, when every other public or national security tumbled in the London market, the Buenos Ayrean bonds held their own, and this was solely attributable to the fact that the holders of these securities put more faith in the solvency and honor of Buenos Ayres than in the most powerful empires of Europe.

We noticed some months ago angry letters which appeared in the English papers respecting the Government of Buenos Ayres; the Minister of Finance was called to an account, and it was our painful duty to show his Excellency the letters in question. The writers of these letters were for the most part shareholders of the Northern Railway, who, without seeking into the real state of the affairs of the company, launched out in the bitterest invectives against the name, fame, and character of the Government of Buenos Ayres. Latterly, owing to the peculiar position of the company and the constant divisions and disputes between shareholders, bondholders, and directors, the whole concern has got into Chancery, and the complaints of shareholders against the Government of Buenos Ayres, instead of appearing in the papers and made directly to the public, are now made before the first tribunal of England. Intimately acquainted with the affairs of the Northern Railway, from the turning of the first sod up to the naming of a committee by the Government to inspect the accounts, we are, as impartial observers, free to admit that the Government of Buenos Ayres is free from all blame and censure, and the charges made in the papers at home were without the slightest color of foundation; but now that the report of the inspecting committee has been sent in, it behoves the Minister to at once move in the matter, and give the public full opportunity to judge of the real merits of the case.

The credit of a country like Buenos Ayres is too valuable to be imperilled by a trumpery dispute of a few thousand pounds, and although we have not seen the report of the committee, we have heard sufficient to convince us that the members of that committee, although gentlemen of high social position here, and of sound practical experience, have, in their zeal to save the country expense, scrutinised the accounts in a manner which will receive little approbation amongst the moneyed men of England.

A young country like Buenos Ayres must, in order to hold her credit abroad, be like a new fire and life insurance company, which is only too anxious to make a loss in order to prove with what religious exactitude they pay their policies. As we have not the report before us we must only criticise it on hearsay.

The committee has thought fit to reject the salaries of President and Directors at home. Now people who know anything about railways must be aware that the salaries of these officers, and the expenses of the head office at home, are as necessary to the existence of a railway as the very rails and sleepers. The rejection of these expenses, we feel certain, will not meet with the approbation of an enlightened Minister of Hacienda. All these officers must, by the very laws of the company, be large shareholders; these situations and emoluments are, as it were, an inducement to capitalists to invest their moneys in the shares of a company. To cut away all these expenses, and only allow the salary of a traffic manager, would eat into the very vitals of the joint-stock system We call upon the Minister of Hacienda to reject in toto such a suggestion. The paltry saving which would accrue to the country by the non-recognition of such expenses is too insignificant to be compared with the injury otherwise done to the credit of the country.

There are other portions of this report which will not bear the light, and which we feel certain will lack approbation in the Government-house. We have not now time to discuss them, but we confesss that we can hardly bring ourself to credit all we hear about this report. Ours be the task to drag this celebrated report before the public and hold it up in its proper light. The present moment is premature, but our readers can form some idea of the memorable labors of this renowned committee when we tell them that amongst the items rejected is the cost of uniforms for the guards and officials What will English capitalists say when they learn this?

Convinced as weare that such miserable economy is calculated to injure seriously the credit of Buenos Ayres abroad, we implore of the Government to reject in toto this report. The mismanagement of the road may cost the country something, but in the end Buenos Ayres will be the gainer, by dealing liberally with the shareholders. Then the credit of the country will be so firmly established that the 7 per cent. guarantee of the province of Buenos Ayres will command a premium in England, and not as at present,—that the 14 per cent. guarantee of the province of Buenos Ayres, in the shape of £20 Southern Railway shares offered for £10, on the Merchants' Exchange of Liverpool, could not find a single purchaser in the crowd of capitalists which thronged the hall.

THE PACIFIC MAILS.

The Quadrilateral Alliance—Honors to the Presidents of Peru, Bolivia and Ecuador—Treaty of frontier with Bolivia—Gottschalk's grand concert—The new Chilian Loan—Expected return of Spanish fleet—Proposal to exchange prisoners Latest from Bolivia—Relations with Montevideo, &c.

We have files from Valparaiso to Aug. 15th, with long details about the compliments interchanged between Chile and her three Pacific allies. Congress has passed a vote of thanks to the rulers of Peru, Bolivia, and Ecuador, naming Cols. Prado, Melgarejo and Carrion to the rank of Chilian Generals, for their services against Spain. President Melgarejo, in his turn, has presented gold medals and rights of Bolivian citizenship to the Chilian, Peruvian and Ecuatorian envoys. The vexed question of Mejillones and the frontier is at last arranged by the respective plenipotentiaries; a line of iron posts is to be run across the desert of Atacama at the 25th degree of S. Lat. and the profits of Mejillones and the other guano islands to be divided equally between Chile and Bolivia, the former holders receiving 80,000$ indemnization.

The 10th August was kept as civic festival in honor of the Independence of Ecuador, salutes were fired, troops, reviewed &c., and the banquet to Garcia Moreno was postponed till the 16th. Professor Gottshalk gave his grand concert of 350 performers at Santiago with great success; crowds had to be refused admission, and it is to be repeated in a few days. The proceeds were given to the St. Vincent society, and a gold medal presented to Mr. Gottschalk.

Mr. Vicuna Mr. Kenna publishes a long correspondence about his buying steamers at New York. The Neshawnock arrived from Monte Video in 21 days, and gives great dissatisfaction, being pronounced useless: she is 1445 tons burthen, and built of white pine: she brought 2 volunteers from Monte Video. Some other vessels for the navy are expected, and Admiral Tucker of Peru is to command also the Chilian squadron. It is positively stated that Admiral Mendez Nuñez is coming back to the Pacific on receiving re-inforcements from Spain: he retains 250 Chilian prisoners on board the fleet at Rio, and the Chilian envoy at Buenos Ayres is ordered to open negotiations with him for an exchange of prisoners, 150 Spaniards being held at Santiago. Before bombarding of Callao arrangements were on foot, but afterwards broken off. Much praise is given to Sr. Lastarria and the Government of Montevideo for happily renewing diplomatic relations, and the 'Independiente' has a flattering article on the Republic of Uruguay, although opposed to the Triple Alliance and predicting the total discomfiture of the allies by President Lopez.

Statistical returns shew the population of Chile to be 1,819,800 souls, and the Congress is composed of 96 deputies. The Covadonga finished her repairs at the new dock-yard of Valparaiso on the 11th, and proceeded to sea. H.B.M.S, Mutine left for Coquimbo, and the Topaz is expected shortly from Callao. The American ship Villa Burdeos was driven ashore near Tome, in a storm, on the 9th inst., and instantly sunk: only one man lost. A dreadful fire occurred at Montecristo: 62 houses burnt, and all the merchants left houseless. The powder-factory at Illapel blew up on the 4th inst.: a workman whose apron had caught fire sat down on a barrel of powder, and the whole place was blown to atoms; luckily the other workmen had just gone out. A vessel from the Sandwich Islands relates that five of the Spanish vessels called there for fresh beef after the bombardment of Callao, and the officers gave a grand ball to King Kamehameha and his court: they sold the Uncle Sam by auction, and then left for Manilla.

The Chilian papers speak very strongly against the United States, about an alleged treaty to purchase Lower California from Mexico and unite it to the States: they say Napoleon has a hand in the business.

The Bank of Chile has raised its capital to 10½ millions dollars. The new home-loan is negotiated: the Bank of Chile takes $2,705,000; the Valparaiso Bank 510,000; Mr. Edwards 510,000; Messrs. McClure & Co. 510,000, and Messrs. Ossa 204,000—in all, $4,439,000. The bonds are to be emitted at 85: interest payable in Chile 8 per cent., or at Messrs. Baring in London 7 per cent. The bankers pay down 700,000$ cash, and give bills on London at 60 days for 1,100,000$: the rest is payable at fortnightly instalments up to Dec. 31st; exchange at 44 pence per dollar.

From Bolivia we learn that President Melgarejo held a grand review of all the national army, at Loja, on July 10th. The forces mustered 6 batts. infantry and 3 artillery regiments, and went through a fine sham-fight, after which they begged Melgarejo to give himself the title of General and a gold medal. There was a grand banquet by the clergy, and a deputation next day to the palace, but General Melgarejo had sprained his foot going upstairs and was in bed.

From Peru we hear that General Prado is likely to be re-elected, although a strong re-actionary party exists. Mr. Robertson, H. B. M. Consul at Callao, is dead. The Americans had a grand 'fete' at the Chincha Islands on the 4th of July, and a regatta with the English officers.

From Central America we read that the Spanish Minister, Sor. Luxan, is withdrawn, and the embassy closed. A French gold-mining company has begun operations in Costa Rica. Some excitement prevails in Nicaragua and it is hoped Gen. Bonilla will be elected President. The first steamer of the new line from Australia arrived at Panamá on July 22nd. An officer and eight men of the United States ship Farrallones got drunk at Panamá and the people thought it was a revolution: the offenders are to be tried by the Admiral.

LATEST FROM AUSTRALIA.

NEW LINE OF STEAMERS TO PANAMA.

IMPORTANT FROM NEW ZEALAND.

All doubts as to the success of the newly inaugurated steamship line between Panama and New Zealand, and the capability of the steamers to make good time, are now at an end. The first steamer of the line from Wellington, the Kaikoura, arrived at Panama on the 20th July, having made the run in twenty six days, being two days less than schedule time. So pleased were the people of New Zealand at the prospect of the opening of the new line, and such confidence had they in it that the ship came up full of passengers, a novelty in the annals of steam boating, and it is gratifying to know that these passengers have not been disappointed in their expectations of beating the Suez line by several days, and enjoying in every respect a far pleasanter trip.

From our files of the Auckland 'Southern Cross' to the 16th ult. we gather the following:

The mission of the Governor, Sir George Gray, amongst the hostile tribes referred to in our last summary from New Zealand, had entirely failed, all the chiefs, refusing an interview with the exception of the noted William Thompson. An interview held with the latter is regarded as having terminated satisfactorily. A great native meeting had been held at Haugatiki, within fifteen miles of the Government outposts on the Waipu, at which representatives from all the disaffected tribes and some 600 fighting men were present. They resolved to shut their territory against Europeans, and the law is not to be allowed to obtain a footing amongst them.

Governor Grey has decided that the seat of government shall also be the military head-quarters of the cavalry. General Chute, Commander-in-Chief, and Staff were to leave Auckland on the 10th June, for Wellington, there to await further instructions from England.

Five natives concerned in the murder of Mr. Valkner, Mr. Fulloon and others, on the West Coast, have been executed. The remaining prisoners are reserved for penal servitude for life.

After a protracted debate in the Provincial Council it has been determined that in future all the agricultural lands of the Province are to be sold at 1£ per acre, and all the pastoral lands at 10s.

It was feared that the Hau Haus, in the vicinity of Wanyanui, are again likely to give trouble.

New Zealand had become free from trouble from the inimical aborigines, whose numbers had become insignificant.

General satisfaction is expressed in New Zealand and New South Wales at the opening of the Panama route, which may now be looked upon as a success.

Mr. Sparkes, the Melbourne manager of the Peninsular and Oriental Steam Navigation Company has been found a defaulter to the extent of £12,000.

The wheat crop is reported excellent.

We regret that several fires have occurred in Auckland of late. The new premises of the 'New-Zealander' office have been destroyed by fire, together with most of the type. The machinery has likewise been injured. It was covered by insurance—£3,000 on the building and £5,000 on the plant. The insurance offices have been heavy sufferers by burnings lately.

The weather is mild and genial. Showers have fallen, but the wet season has not yet set in. Pastures are, however, in fair condition. The general health of the community is good.

Information was received in Melbourne from Anger Point that the ship 'Jeddo,' from Surinam, bound to China with coolies, was set on fire, and that 260 of the coolies perished in the flames.

Deposits of sulphur have recently been found in Victoria.

Petroleum has been discovered near Araluen; large veins indicate abundance similar to that found at Hartley.

The scab has, fortunately, almost disappeared from the colony. The only sheep now under license—a small flock of 1300 on the Bogan—have been under the inspection of one of the Scab Inspectors for some months past, and his report to declare them clean is daily expected.

Queensland.—A shipment of cotton, consisting of 38 bales of Upland and Sea Island, has been sent to England from the Townsville Cotton Plantation.

The 'Queenslander,' of 19th May, states that the financial state of the colony had forced the Government to withhold, for a time, any proposition for the further extension of railways in that colony. From the Northern settlements we hear of nothing but satisfactory accounts. Mr. Walton is opening the coal mines at Wangarei, and coal is now amongst our articles of domestic produce. On the West Coast the trade between Onehunga and Kaipara is increasing so fast that two additional coasters are being laid on as regular traders. From the various settlements along the coast, gum, flax, and agricultural produce come more freely forward than for several years past. Coromandel still yields steady returns of gold. We believe, if deep-sinking were resorted to, the district would turn out very similar in its gold returns to Ballarat. The Kapanga Quartz Company has paid 70 per cent. within eighteen months, and left a balance in hand to pay for new machinery.

EDITOR'S TABLE.

The Solis arrived yesterday morning at the Tigré, bringing 46 passengers and no news about the war. There is nothing particularly new in Rosario. The Argentine Bank, we hear is doing a splendid business and obliged to call up more capital.

Our colleague, the 'Nacional,' in a very sensible article, calls attention to the legal responsibility of the Government as regards the late accident on the Western Railway. We fully coincide with our colleague, and if the decisions of the courts of England go for anything, the families of the unfortunate workmen killed by such culpable negligence are entitled to pensions for life. So spirited an expression of opinion, on the part of our evening colleague, was an agreeable surprise, and we could wish that our colleague would take up the question of the sunken wrecks and anchors in the harbor with the same zeal. We have no further news about the parties injured by the railway accident. A gentleman from the Villa Luxan was in our office yesterday: he came in by the train, but he says that there is nothing more known about the matter than what we published.

Out in the Villa Luxan there has been much excitement, owing to some well-known assassin being at large. It seems that the Juez de Paz sent out three soldiers to arrest this man, and when they approached they hung back. When the soldiers returned to the Villa they were at once dismissed the service, and a reward of five thousand dollars offered for the apprehension of the accused.

Numbers of our subscribers leave this morning in the first trains for Chascomus, Mercedes, and the Tigre, for an excursion until Monday. Owing to the great anxiety to hear the news from the Estero Bellaco, nearly all the Government people are obliged to remain in town, as a steamer is hourly expected. If no attack has taken place then we may expect General Flores here to-night or to-morrow.

A subscriber from Rosario asks us to find out the address of Mr. Frank Wilcox, who came to this country some four years ago. Does any one know the legal domicile of the missing person?

We publish to-day a very able defence of Baron Tamandaré. From the style our readers will perceive it is not editorial. The author desired that it should appear as it is written, so we unwillingly comply with his request.

The Argentine Rural Society has taken up the question of the removal of the 'corrales.' We are glad to see the Farmer's Club beginning to figure in matters of such importance, and have little doubt that the influence of this club will prove most salutary for the country.

There is much said about the great number of Argentine officers at present in town; one of our colleagues hints that the Government ought to stop their pay, but we think this a very hard measure, as all who are here are on furlough, and before the war is over they may be wanted.

The Susan Beirne is taking a tremendous cargo up to Itapiru; thirty lighters were around her yesterday. When she entered port she only fired a salute of four guns, merely because she had no more powder.

Yesterday morning, as all the Brazilian war and transport vessels were dressed out in bunting, many thought a private despatch had been received on the Nitheroy with the news of another victory, but such was not the case; the day was some Brazilian holiday and our allies kept up the feast here.

The Montevideau railway people are now getting up a very splendid staff of navvies, owing to the number of unemployed workmen at present in Buenos Ayres from the Chascomus and Central Argentine Railways.

The result of the Rio 4to. court-martial has not yet been published, but we hear that the accused were condemned and ordered to be drummed out of the Argentine service.

A friend of Dr. Richard Sutton who is at present in the army, requests us to say in answer to an advertisement, that his family can be seen at 56 Calle Santiago del Estero.

The receipts of the Provincial Bank for the past month in gold were $f 1,365,979, and the gold paid out $f 1.447,261; and in paper money the receipts $38,621,580 m|c., and paid out $29,571,812.

Yesterday half town was on the beach to see the unfortunate Oriental; Mr. King has got two vessels alongside, besides barrels and empty pipes; the marine people say that King will get her off, although we confess we have great doubts, as she is full of water in her hold. It will be indeed a triumph for our friend Mr. King if he gets her off.

The farmers are very anxious to know what about the new land law; every day we have camp subscribers asking us about the projected law, which, as far as we understand, has not yet passed either house; the Committee reported on it and introduced some wholesome reduction in the price, but there the affair has lain, although in the country districts hundreds are waiting and waiting to see if it will be passed before they make their purchases.

We call attention to the model Weekly Despatch from Las Flores which we publish to-day; if all the principal estancieros outside would only once a week favor us with such a despatch, what a fund of useful information would we not have.

Respecting the convivial captains of the transports who are charged with not having paid for their breakfasts we are happy to say that our Parana colleague has made a great error; the money having been, previous to their departure left with the Consul to pay the hotel-keepers.

Mr. Laidlaw's rounds of corned beef are coming so much into request that this veteran Scotchman cannot meet the demand: like the English bricklayer and the azoteas, he has recourse to the 'Standard' to inform the public and his friends that until, the Newton leaves for Liverpool, he can corn no beef for consumption in town, his export trade is now so very extensive.

There is great noise about the removal of the corrales to the Lomas de Zamorra: some are much opposed to it, whilst others believe it would be not only most desirable for owners of property out there, but also beneficial for the city of Buenos Ayres. The proposed new site for the corrals is facing the Grigg farm. It will give a great impetus to the value of real estate in that neighborhood and at once give the place a new population of say five thousand souls. Mr. Banfield, the Manager of the G. Southern Railway, is, we hear, most willing to make arrangements to suit the wishes of all parties concerned. We believe the proposed move is a first-rate idea, and by all means let us push the butchers out to the Lomas de Zamorra.

Out in Chivilcoy the most tremendous preparations are going on for the Inauguration on the 11th inst. All the cocks, hens, turkeys, and ducks in the neighborhood are being bought up and taken into the station, whilst fowlers are out in the 'pajas' bagging snipe and partridge for the renowned Elordi. We have got no invitaton as yet, and suppose our friend Haedo is annoyed with us for publishing such full details about the late accident.

The Barraqueros' Club, at the Tres Esquinas in Barracas, is now the rendezvous of all the 'ton' of that busy locality. Marshall is building another steamer larger than the Tala, whilst the Stearine candle factory is now in full blast, and doing a very excellent business: the trees are budding, spring is making her appearance, and the Calle Larga is again assuming a gay and cheerful garb. We expect this summer to have two Ministers and one Secretary of Legation rusticating within hail of Standard Hall. At Perry Castle there is a new rustic bridge being constructed to span the meandering stream.

On the 10th will be sold by our friend, Mr. Mariano Billinghurst, a fine lot of 101 rams and 6 ewes, of pure Negrettes, brought out by Mr. L. Kunde himself. These animals are from the most celebrated establishments in Mecklenburg, Germany; and, we are assured, that it is of the greatest interest to our sheepfarmers to inspect them and provide themselves for the season. Mr. Kunde is a partner of the old and respectable firm of Kunde and Sons, in Collmar, Pomerania; and the great confidence that is placed in these gentlemen, is a guarantee to the sheep-farmers that the animals which they have forwarded will compete with any lot hitherto imported.

The following are the two Elevens who play to-day's Cricket-match:

NEWS FROM SAN JUAN.

THE BARRACK BURNED DOWN.

MINING ITEMS, &c.

We have files of the 'Zonda' to the 19th ult.—

On Saturday morning about 8 o'clock a dense column of smoke rose from the centre of the city, but not one of church-bells gave the alarm. It was the barrack on fire: if there were any soldiers there at the time they escaped unhurt. The citizens looked on at the conflagration until most of the hateful edifice was reduced to ashes: the rest is about to be pulled down.

On the 13th ult. the Legislature decreed a special convention to reform the provincial constitution of San Juan. Mr. Nayle is erecting some buildings for the Municipality. Robberies are of daily occurrence. Mr. Jameson accuses one Martinez of attempting to murder him on leaving a ball, which the latter denies. A Chilian, who was condemned to be shot for murdering a man, in complicity with a woman, has been very unwisely saved from execution. A lady named Robledo has a pet panther, which causes much alarm to her neighbors.

A monthly ball is given at the new Casino. Major Rickard petitions for 3 new silver-mines in the Castaño district, Mr. Klappenback for 2 others at La Huerta.

NEWS FROM THE CAMPS.

WEEKLY REPORTS for 'STANDARD.'

LAS FLORES.

September 5, 1866.

Sales of sheep, cattle, &c., in neighborhood.—1400 sheep, at $36; over 20,000 for sale in the district at different prices; no sales of cattle.

Señaling done.—In your correspondent's flocks the marking, up to date, has been a little over 30 per cent.; the average marking of the district has been about alike.

Land rented or sold.—None. Puestos of ten squares by ten offered at $4000; many lots offered for sale at conventional prices.

News in the town.—The judge has returned from the city, accompanied by a clergyman to replace our present parish priest; great firing of rockets on their entry into town.

State of camps, &c.—The camps are very stocked with grass, and the sheep very fat.

Peone's wages, and if wanted.—Peones much wanted; wages as shepherds from $200 to $300, with board, lodging, horses, &c.

Price of stock.—Cattle offered by the cut at $50; sheep from $20 to $45; wethers $35 to $45, in very excellent condition.

General remarks.—If Arrecifes can spare ten doctors for the army Las Flores can spare at least thirty, provided the army medical department is not very precise about diplomas, for this partido can only boast of one diploma, and that belongs to your correspondent, who prefers the air of Las Flores to that of Estero Bellaco. Groceries of every kind scarce and bad in this town; the only good tea in town is a box your correspondent received by last coach as a present from a friend in the city. Timber scarce and dear: nandubay, half posts, $15 to $20; pine, 18 to 20 reales per foot. House rent very high. Tailors very stiff in their prices, only two in town; carpenters and blacksmiths in abundance. Flour $50 per ar.; good biscuit $60; wines, brandy, porter, and ale sell very cheap in this town, but the qualities of each and all are worse than bad.

A GLANCE AT THE PROVINCE OF CUYO.

The comparatively small population of this extensive province, with its large forests, high mountains, and boundless plains, is entirely given to farming pursuits, especially the rearing of cattle. For this reason, as well as the absence of large streams whereon to settle, the towns of the province are very few and far between. The camps are remarkably fine; on all sides lie the most smiling and picturesque valleys, covered with droves of sheep and oxen, whilst the rugged tops of the surrounding hills are dotted with goats, which animal is found to thrive exceedingly well in those regions. The following are the chief towns, taken from the government statistical reports:

San Luis, the capital, is situated in a beautiful and fertile valley stretching away to the south, where it is abruptly broken by the ridge of mountains bordering the province. Population 5,000.

Saladillo: a small village situated on the banks of one of the tributaries of the Rio Quinto, where the ground is high and well wooded. Population 500.

Morro: a stirring little town on the litoral road to the east of the Cerro del Morro, immediately surrounded by well wooded and fertile plains, where the air is most salubrious, and the water plentiful and good. Population 1,000.

Renea: a town of considerable size on the river Conlara, in the centre of a large and beautiful valley. Population 1,500.

Santa Barbara: stands on the tableland of a ridge of mountains which borders the province; the surrounding country is a magnificent plain, rendered very imposing by clumps of trees here and there. Population 500.

Piedra Blanca: a pretty little town built on the bend of the river of the same name, and on the western side of the Cordovese range; the surrounding country presents an inviting appearance, the vegetation being particularly luxuriant, and the fruits and flowers of all latitudes growing to perfection, owing, probably, to the air being so very mild and the water so beautifully clear. Population 1,000.

San Francisco: an important town situated in a lovely valley on the west side of the range which here bounds the province, and on the bank of a river of the same name, which, besides supplying the townsfolk with pure water, in its course through the neighbouring country relieves the weary labourer of all the trouble of artificial irrigation; the town is surrounded by magnificent parks, palm groves, and forests of valuable timber. Population 1,500.

Nogoli: a small village picturesquely situated upon the brow of the high bank of the river, and to the west of the boundary range; the land is very prolific, the grass fine and rich, and the place well supplied with wood and water. Population 300.

These cities, besides being the chief towns of the province, are likewise the capitals of partidos.

The other cities are—Chorillo, Tafatan, Desquadero, San Ignacio, Villa Mercedes, Durazno, Trapiche, Lotorul, Rosario, Estanzuela, Naschal, Conlara, Lorea, La Perux, Dolores, Santa Rosa, Paso Grande, Carolina, Guzman, San Lorenzo, Riucon del Carmen, Punta del Agua, Lomita, Cantana, Quines Retamo, Rio Seco, Corrales, Salinas, Socoscora, Ruminquasi, Figante.

Within the length and breadth of the Argentine Confederation there is, perhaps, no region so favoured as the lovely little valley in which San Luis stands: the beautifully undulating camps are picturesquely wooded, and the hill-tops covered with variegated wild flowers which load the air with exquisite perfumes; the face of the country presents many varieties, and the traveller on leaving the city meets successively with rich fertile valleys, majestic hills, close forests, and now and then narrow strips of table land, the whole forming a magnificent panorama, with the most salubrious climate. The country in the immediate vicinity of the snow-capped Andes is less favoured by nature, and, with the exception of some places where the hand of man has produced an artificial vegetation, is bare and unproductive. Strange to say, the Cordovese camps, with few exceptions, lack the animated appearance which a varied hill and dale is calculated to produce; here it is different, and were it possible to collect together the various landscapes the picture would indeed be a dazzling one.

SHEEP-FARMING.

To the Editors of the 'Standard.'

Gentlemen,

It is now some time since I addressed a communication to you on this all important subject. Indeed I feared that my frequent warnings, given at intervals during the past three years, of the coming 'wolf,' would pall upon our sleeping shepherds, though not the less assured of his visitation sooner or later. The wolf has been in fact among our flocks for some time back, had we but been awake to his presence. Unfortunately, none are so deaf as those who will not hear, none so blind as those who will not see. It is painful to me to have to refer to unheeded warnings when the evil has fallen, and I do so only that greater evils may be avoided—evils which will as assuredly come as those which are past or present. I warned the sheep-farmers that they had camps over-stocked to a perilous degree, and that they had a poor unthrifty class of sheep that could not yield a fair return on the value of land. I ventured to tell sheep-farmers who were owners of land that it was not to their interest that lands should fall in value, by reason of their inability (from overstocking) to carry a large number of unprofitable sheep; but on the contrary, that it was their paramount interest that their lands should rise in value, by reason of increased yield from improved stock reared and fed on them. I ventured to point out to them that it was to their interest to get rid of a large portion of their old and inferior sheep while there was yet time, and at any price, as otherwise they would die on their hands from starvation and infirmity, and that those remaining would be broken in constitution and deteriorated in all points from the like cause. Will anyone pass over the camps to-day, beholding the thousands upon thousands of carcases of rams, ewes, and lambs, and the living pitiable in their wretchedness—lean, weak, and comparatively wool-less, and say that my cry of 'wolf' was not justified?

Will anyone that notes the camps themselves, 'poblado, only with the thistle and the trevoil, doubt that over-stocking has done its work effectually?—the thistle to smother the last vestige of the true grasses, and the trevoil to leave the camps bare and brown as the road in summer, and fill the wool with 'caratilla.' Surely our sheep-farmers have been killing a lean goose in the hope of extracting golden eggs. The greed for numbers is the crime which sheep-farmers in general must expiate; and the error in the choice of breed—a breed of small unthrifty sheep, yielding little or nothing in grease, and only two or three pounds of so-called wool, but a large portion of which is dirt and 'caratilla'—is the misfortune which will necessitate much expense and many years to get over.

The vat is the true goal of sheep-farmers. How else are they to realise an increase of many millions per annum? There can be no doubt that large-carcased grease-yielding sheep, with weighty fleeces of good conditioned long wool, offer the only hope for the sheep farmers. This, which I have endeavoured to demonstrate time after time, is now a self-evident proposition.

It is useless to cry out against taxes and duties, they are inevitable. The misfortune of wars in the U. States and in South America and in Europe—the countries of production and consumption—must be paid for; it is the fate of all nations as they grow to be taxed, and it is the obligation of the people that they should make themselves able to pay taxes, and prosper, by improving their industries, products, and stock.

Let us banish the wolf from our folds, i.e., relieve our camps—if starvation has not done it—so as to bring them round, to allow grasses to grow, and rear sheep that will give us grease and wool instead of skeletons and dirt.

Those who hesitate are lost. Numbers of intelligent sheep-farmers in the Banda Oriental and Entre Rios are showing us the way; they have digested "Farmer's" advice, and are on all sides putting up vats, weeding out their inferior stock, using large thrifty acclimatised rams of weighty long-wooled fleeces, and taking care of them—feeding them well, and keeping them out of the flocks except at the proper season, when they are carefully drafted into them, and taken up again before they have debilitated themselves by over working.

August 26th. A FARMER.

ADMIRAL TAMANDARE AND GENERAL MITRE.

(Article communicated.)

We have read with a great interest' an article published in the 'Nacional' of Tuesday evening on Admiral Tamandaré and General Mitre; but the author of it has omitted some peculiar circumstances that have been communicated to us by an English authority, and to which we consider our duty to give publicity, in defence of the truth and justice.

The blame so severely inflicted to admiral Tamandaré by some newspapers, since a few months, about the inaction of the Brazilian squadron, was completely unjust and unfounded.

So, when the war committee expressed to the gallant Admiral, some time ago, their desire of the squadron beginning immediately the operations against the fortresses of "Curupaití" and "Humaitá," Tamandaré observed judiciously the impossibility and nonsense of such movement, by two reasons:—

He said that, at first, the forthesses being more strongly fortified on the side of river, than on the side of the field, it would be better to attack them simultaneously on the both sides by the squadron and the army.

He added, in the second instance, that the squadron was not able to do any useful attack of the fortresses, until he has on board of his vessels a responsible body of disembarking troops, to assault the places and take possession of them, after their being bombarded.

And finally the admiral concluded saying his squadron would be ready to advance the same day, when the necessary troops of disembarking have been put at his disposition, and when the army is able to move and co-operate simultaneously to the acting operations.

Then, at hearing such a judicious opinion of Tamandaré, General Mitre neither none of the other members of the war committee, insisted about the moving of the squadron, until it is provided with disembarking troops, and until the army is able to move at the same time.

Therefore the combination of the simultaneous attack explained and proposed by the admiral Tamandaré, was agreed unanimously by the other members of the war committee; and so it is quite unjust to render the Admiral responsible of the delays of the operations, and consequently of the prolongation of the war.

Fatality has been the principal cause of so lamentable delays, which may be easily comprehended in the case of a war enterprise at so long a distance, without having been expected and consequently without having been provided for.

On the other part, to whom, in such circumstances, may be attributed the loss of so long precious time, if not to fatality, when everybody may imagine what annoyance has resulted from it to all brave navy and army chiefs, officers, troops and crew of the allied forces?

Respecting General Osorio, it is quite untruth the report of his having blamed the inaction of the squadron, For, at the time of taking leave to the army this general wrote to Tamandaré a letter (which has been published in news-papers) to thank the admiral of the counsels and valuable services he had rendered to him in the command of the army.

Now it is known that, since a few days only, the squadron has been provided with the necessary troops of disembarking, and also that, since a few days only, the army has been provided with the necessary elements of moving.

So, it is evident that the gallant admiral does not desert any blame; and on the contrary a large tribute of justice is due to him for the longanimity and dignity of the silence he has observed with his unjust and ill-informed detractors.

But it is probable that at every moment we may expect and will receive the news of a decisive election, proving that admiral Tamandaré has contributed largely by his prudence and longanimity to secure the success of the campaign and the beneficial results of the Triple Alliance.

X. X. X.

HARTENFELS v. HARTENFELS.

Irregular proceeding by my countrymen, the arbitrators.

Under date June 23rd. 1866, I published in the 'Tribuna, a notice of the 4th of said month, containing the sentence of the Supreme Tribunal of Justice in the lawsuit I instituted against my brother, Mr. Henry Hartenfels, and in view thereof I cannot pass over in silence the proceedings of my countrymen the arbitrators, who should have acted in a fairer manner.

For the liquidation of my house of business in this city, P. E. Hartenfels sons, arbitrators were named 4 and 6 years ago in the persons of Messrs. Roosen Runge and Sassenberg, and for umpire Mr. Henry Cammann, Hanoverian Consul, and managing-partner of the house of Messrs. Bieber & Co. All these parties acted as such up to about two years ago, Mr. Henry Hartenfels being at the time encharged with winding-up the business of the house.

But the arbitration coming to an end as well by reason of Mr. Sassenberg's resignation, as because Mr. Henry Hartenfels did not prolong the term, the umpire Mr. Cammann not only denied having the books shewing the result of the liquidation (and which had been made up by the accountant named by said arbitrators), but also joined Mr. Sassenberg in favor of Mr. Henry Hartenfels, refusing to give up the letters and documents referring to such liquidation, which had been received during their term of administration: this was not impartial as becoming arbitrators, but rather acting as friends of Mr. Henry Hartenfels. Nevertheless I succeeded in proving the existence of such books and documents in their possession, and the Tribunal ordered them to deliver up same, thus defeating their intention.

This is a simple statement, based on documentary evidence of the lawsuit I have recently gained against the arbitrators, Messrs. Cammann and Sassenberg, and I can shew their dealings by official documents to all parties who have an interest in the suit, which has occasioned me an injury of six years' delay in simply winding-up my house of business. At the same time I declare that I wish no further controversy except before the proper Tribunals.

Buenos Ayres, Sept. 7th 1866.

GUSTAVUS HARTENFELS.

THE MAGNESIUM LIGHT.

The art of making photographs by means of a magnesium light, although not entirely new in Europe, is almost wholly unknown on this side the Atlantic. Nevertheless it was established, by means of experiment, two years ago in London, and quite recently in New York, that it is no longer necessary to have sunlight, or indeed any other light, save that which may be produced by a yard or two of magnesium wire, to take a positive picture like the daguerreotype, or a negative one, as in the case of the photograph.

Indeed the metal itself, and the purposes it may be made to subserve, are so new to the general public, that a statement of a few of its qualities may not be out of place. It is a brilliant metal, having almost a silver whiteness, slightly brittle at common temperatures, but very malleable at a heat a little below redness. It is quite light, having a specific gravity of 1.74 or about one-sixth the weight of the same bulk of silver. It melts at a full red heat, and volatilizes at about the same temperature as zinc. Its lustre remains unimpaired in a perfectly dry atmosphere, but if left exposed in a damp or humid air it soon tarnishes, and becomes covered with a film of magnesia. Its most important property, so far as is known, is the facility with which it ignites or enters into combustion, and the marvellous brilliancy and peculiar qualities of the light it emits. Profs. Bunsen and Roscoe discovered that a magnesium wire one one-hundredth of an inch in diameter would give a light equal to 74 stearine candles of five to the pound.

The light produced by burning magnesium wire is applied to photographic uses as follows: A piece of tin about 30 inches high is bent into a semi-circular shape, having a pan at the bottom to receive the ashes of the wire, and being cone-shaped at the top with a kind of funnel or chimney attached for the purpose of carrying off the fumes into the external air. Inside of this apparatus is placed a convex reflector, and immediately behind the reflector, on the outside of the tin, a clockwork lamp, from a tube extends through the reflector, curving downward. The magnesium wire, two or three stands being firmly twisted together for the purpose, is inserted into an orifice in the back part of the lamp, where it is caught by the machinery and carried through the tube at the end of which it is ignited. The lamp itself is wound up with a key, like a clock, and the machinery is put in motion or stopped at will by means of a spring or lever, while its rapidity is controlled by means of wings, attached somewhat after the manner of the governor of a steam-engine, and so arranged as to be more or less affected by atmospheric resistance.

This apparatus is attached to the camera in such a manner as to place it wholly under the control of the artist. The intensity of light is governed by the size of the wire and the rapidity with which it is burned, and it is diffused or concentrated by means of the reflector. A positive picture may be taken in from one to five seconds; but a negative requires longer time, say 40 or 50 seconds, or, in some cases, a minute, owing to the size of the picture and the focus of the lens, whether it be long or short. The light, which is quite as dazzling as that of the noonday sun, is generally thrown upon the subject at an angle of nearly 45 degrees, and the eyes of the sitter are carefully turned away from it, that they may not be injured by its brilliancy.

S. A. Holmes, whose operating-room is in Barnum's Museum, is entitled to the honor of introducing this apparatus to the New York public, and, we believe, took the first pictures by means of this agency on the Western continent.

N. Y. Tribune.

SPECIAL TELEGRAM.

Ferro-Carril del Norte,

Tigre, September 7, 7.30 a.m,

The Solis has arrived with 49 passengers. No news of importance.

ON 'CHANGE.

September 7, 1866.

Paper price of ounces,	$405½	
Do. sovereigns,	124	
First price of patacons,	25	35
Second	25	30
Last,	25	35

Cash sales, 82,779.

Gold closed weak this afternoon. To-day was for business purposes the same as Saturday, and the mercantile clerks were busy collecting, but they report money very tight amongst the dealers and collections miserable.

The time sales of specie were as follows:

For Saturday,	18,000	25	35
Sept. 30,	64,000	25	35
Dec. 31st,	10,000	25	50

Yesterday we unintentionally quoted Bonds at 40½ when the price should have been 40¼, at which price there were 5,000 sold to-day.

There was much said to-day about the new Government Treasury bills, which it seems have not been taken by any of the banks, and to-day were offered on the Bolsa. We understand that Dr. Sarsfield contemplates an arrangement with the Provincial Bank whereby these securities will be taken and made the basis of a specie note emission; as yet, however, there is nothing certain known about this, and it is probable, if we receive satisfactory news from headquarters, that the Treasury Notes will be taken up by various parties in the market.

The non-arrival of the San José Brazilian transport has induced many to believe that the rumor as to her having been chartered to convoy gold to the River Plate is without foundation.

Respecting the state of things at the Estero Bellaco there are all sorts of conjectures. As the steamer has not arrived it is confidently asserted up to the 3rd there has been no fight. The Alisado and some other steamers are known to have been specially detained to take the news to Buenos Ayres.

The Oriental is still in the same state. Some lighters have been got alongside of her and sunk so as to enable the captain to raise her. Her bows have been slightly lifted, and many persons are quite sanguine that if no bad weather comes on she will be ultimately got off.

The Newton leaves this evening for Montevideo, taking a number of passengers for Montevideo, amongst others Mr. John McColl, of that city.

There has been a great stir in the barracas and wool markets during the last few days, principally amongst French buyers, who seem anxious to secure all the wool on hand for the Havre market. In Barracas 8,000 ar. sold, common mestiza wool, at 62, and in the South Plaza all the small lots have been bought up, say 4,000 ar., at from $60 to $75.

In dry hides 1,500 at 37 rls, 5,500 American hides, 23lb., at 35 rls, and 1,500 Cordova hides at 35 rls. In the plazas about 2,000 dry hides, at from 95 to 102.

Messrs. J. P. Boyd and Co. have chartered the English barque Sunbeam to load bones and bone ash in port for orders, at 22s.

Mr. Green, the Manager of the London and River Plate Bank, has returned from Rosario. In his voyage up the Solis was detained 13 hours by a schooner, which lay right across the Capitan.

Any person requiring a ticket in the Villa del Salto for Higueritas, can obtain same for half price at our office.

Salt—3,000 fanegas ex Evelyn, at 12 rls. cash.

Messrs. Matti & Co. have made some alterations in their time-tables on the Corrientes line; henceforward the steamers will arrive here on Monday instead of Tuesday, and leave as before every Thursday: they will arrive at Corrientes on Tuesday instead of Wednesday.

Exchange on England, 49⅜ to 49½.

Paper money is beginning to be more looked for, but gold still rules extremely abundant.

Hair, 350@ Cordova horse, 34r.

Do. 90@ cow, 90 m/c@@.

A Young Married Man, who has an extensive knowledge in sheepfarming and all camp business, desires to take charge of an Estancia under Contract for four or five or more years.

Any person or persons desirous of having their establishment well looked after would do well to take advantage of this good opportunity—seldom to be got.

Good recommendations can be given. Offers, expressing conditions, &c., may be left at this office, addressed 'D. E.' 47 | 3p,s7

REMATE

POR MARIANO BILLINGHURST.

En su casa, calle de Potosi No. 70.

De 101 Carneros Padres y 24 ovejas de la Raza Negretti, introducidos por el Sr. Don Luis Künde, socio de los Sres Künde y Sohw en Coliterg, Pomerania.

El Lunes 10 del corriente á las 11 en punto de la mañana se han de rematar sin falta alguna á la mas alta postura y dinero de contado los animales arriba designados y cuya clasificacion es la siguiente:—

4 carneros de la cabaña Grissi en Mecklenburg cuyo orijen es de la de Hostitz fundada 1834; 16 carneros y 4 ovejas de Cambs, Mecklenburg, fundada con introducciones directas de España el Siglo XVIII.

17 carneros de la cabaña Mierendorf, Mecklenburg, originaria de Hostitz en 1830

2 carneros y 10 ovejas de 'Incho,' Conde de Kleist, orijen de las de Chzenna y Horrah pertenecientes al Emperador de Austria.

122 carneros y 10 ovejas 'Jorbin,' originaria de Hotitz y Kenzlein.

16 carneros 'Valma,' originaria de Chzenna y Horrah del Emperador de Austria.

4 carneros de Talemberg, originarios de Kenzlin.

7 carneros de Grameza del Conde Senf de Pilsag, originarios de Papon.

9 carneros de Gerfin, origen de Lenschow.

Si estos animales corresponden ó no a la clasificacion y recomendacion que traen y al gran costo en que han sido asegurados, los inteligentes decidiran, y si a esto se agrega que vienen al cuidado espreso de uno de los socios del establecimiento de cuya importacion hay aqui testigos fehacientes, los compradores no pueden menos que esperar adquirir animales de nombradia.

33—xp S7.

POR MARIANO BILLINGHURST.

En su casa calle Potosi No. 70.

De 49 carneros padres de la raza Negretti, sangre pura, vendidos á la consignacion de los Sres. J. N. Bieber & Ca. por el bergantin Ingles 'Melita,' de Hamburgo.

El Miercoles 12 del corrientes a las 11 en punto de la mañana se han de rematar sin falta alguna a la mas alta postura y dinero de contado—

Los 49 carneros padres de la raza Negretti los que han sido elejidos de las mas afamadas cabañas de Alemania, cuyo detalle se dara oportunamente. Entre estos animales vienen dos que han sido premiados en la ultima esposicion, todos ellos traen una muy especial recomendation a cerca de su origon, tipo y fuerza de sangre que los inteligentes sabran apreciar debidamente.

39—xp S7.

POR MARIANO BILLINGHURST.

En el Corralon Cocheria, Calle San Martin frente a la Bolsa de Comercio. De orden de su proprietario el Sr. D. Patricio Peralta Ramos.

Por liquidacion.

El Miercoles 19 del corriente a las 11 en punto de la mañana se han de rematar sin falta alguna a la mas alta postura y dinero de contado todas las existencias del espresado establecimiento, consistentes en—

30 carruages, entre estos, tres de servicio funebre, 46 caballos de tiro, la cajoneria, armazon, muebles, encores y utiles de talabarteria, herreria y capinteria, al mismo tiempo la accion al contrato que vence el 15 Octubre de 1870, con el alquiler de 5,000$ mensuales hasta Octubre de 1868 y de 6,000$ en adelante de esa fecha. Entre los carruages hay algunos de 1.ª calidad. La central del local y la facilidad de surtirse de cuanto precise el nuevo empresario, el dia del remate, constituyen la importancia de este remate.

50—xp S7.

POR MARIANO BILLINGHURST.

De la finca situada Calle Cuyo No. 145, entre Florida y Maypu. De orden del Sr. D. P. C. Pereira, albacea dativo y del Sr. Mariano Baudrix, Consul General de la Republica de Chile, en representacion de los interesados y con autorizacion del Sr. Juez de 1.ª Instancia Dr. D. Miguel Garcia Fernandez.

El Jueves 27 del corriente á las 3 en punto de la tarde se ha de rematar sin falta alguna a la mas alta postura y dinero de contado—La finca arriba designada, construida en 7¾ varas de frente por 28½ de fondo, edificio antiguo y viejo, debe venderse infaliblemente para liquidar una testamentaria en que los interesados residen en Chile.

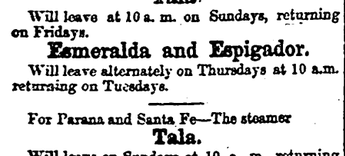
HOWARD'S CHAMPION PLOUGH



Gained at the Last Trials of the Royal Agricultural Society of England, at Newcastle, the FIRST and ONLY PRIZE for the
BEST WHEEL PLOUGH FOR GENERAL PURPOSES.
This is the most important Prize for Ploughs offered by the Society, and for the last TEN YEARS J. & F. Howard have been the winners of it.

HOWARD'S CHAMPION PLOUGH has received
FIFTEEN FIRST PRIZES
from the Royal Agricultural Society of England, being the Largest Number of Prizes awarded to any kind of Plough ever exhibited.

HOWARDS' CHAMPION PLOUGHS
Won at the last two years' Autumnal Matches the unprecedented number of
FORTY-ONE ALL ENGLAND PRIZES, AND UPWARDS OF 400 LOCAL PRIZES.
The largest number ever gained by any maker.

More than Sixty Thousand are now in use

At the Plymouth Meeting of the Royal Agricultural Society of England, July, 1865, J. and F. Howard won every Prize for which they competed, viz.—
TWO FIRST PRIZES FOR THE BEST HAYMAKING MACHINES, and the
FIRST PRIZE FOR THE BEST HORSE RAKE.
These Machines have won every First Prize at every competitive trial, both at home and abroad.

The following Prizes have been awarded to J. & F. Howard by the Royal Agricultural Society of England:—
FORTY-FOUR FIRST PRIZES
For the best ploughs for light land, best ploughs for heavy land, best ploughs for general purposes, best ridging ploughs, best subsoil ploughs, best harrows, best horse rakes, best haymakers and best horse hoes;
ALSO THE GOLD MEDAL, AND OTHER PRIZES.
For steam cultivating Machinery, which is specially adapted for laying down land in permanent pasture.

COTTON GINS.
BURGESS & KEY
Obtained the SILVER MEDAL for their Improved Emery's American Cotton Gins, at the Turin Exhibition.
The Report states that "the two Gins exhibited by Burgess & Key were found capable of gaining a greater quantity of Cotton than all the other Gins of different systems."
The many improvements made in these Gins by Burgess & Key, have been the result of experiments made on every variety of Cotton, and also from experiences in Egypt, India, Italy, Greece, Smyrna, Australia, &c., &c. where many of the largest Ginning Establishments, have adopted these Gins, and in one case twenty-one of them are united in one establishment, each of which will turn out 500 lbs. of clean cotton per "hour."
The capacity of the Gins varies from 25 to 300 lbs. of clean Cotton per hour, according to the size.
Burgess & Key's Steam Engines, Horse Works, Presses, Pumps for Irrigation, &c., &c., are specially adapted to cotton growing countries.
BURGESS & KEY,
93, NEWGATE STREET, LONDON.
Where Gins can be seen at Work.
A PROSPECTUS CAN BE OBTAINED OF THE PUBLISHER.

SAVINGS BANK.

BANK MAUA AND CO.
101--Cangallo--103.
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from nine a.m. till Three p.m. on Week Days and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, September 19, 1863.
P.P. MAUA & Co.,
WILLIAM LESLIE.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

P. P. Mauá & Co.
WILLIAM LESLIE.

LA ADMINISTRACION.

RIVER PLATE STEAM-SHIP COMPANY.
LIVERPOOL AND RIVER PLATE DIRECT.
NAMES OF STEAMERS.
LA PLATA (new).
ADA, CORDOVA,
URUGUAY, LEDA,

One of these Steamers will leave Liverpool for Montevideo and Buenos Ayres on the 10th of each month.

Cargo will be received on board of the steamers 48 hours after their arrival, to be delivered in any part of the United Kingdom, or on the Continent, being forwarded by railway and steamer for account of the Company, the bills of lading being signed with these conditions.

As the object of the Company is to extend and facilitate the existing traffic between Europe and the River Plate, the rates of freight will be very moderate.

Specie and Parcels will be received until the day before the steamers leave.

In order to facilitate immigration to these countries the rates have been reduced as follows—

1st Class.....£35.
2nd ,, ...£25.
3rd ,, ...£16.

Return Tickets will be issued for six months at the following rates—

1st Class.....£65.
2nd ,, ...£45.
3rd ,, ...£30.

These boats are excellent opportunities for families visiting Europe, more especially when consisting of Ladies and Children, having large ladies' cabin, and carrying an experienced stewardess.

NEW WINTER GOODS.

Mr. THOMAS HOLMS begs to inform the public and his numerous friends that having just received an extensive variety of new and fashionable articles selected from the London, Glasgow, and Paris markets, he is prepared to exhibit an unequalled and varied stock, and respectfully suggests to ladies the advantage of an early visit. As the assortment embraces so many articles it is impossible to give the details within the limits of an advertisement. The following however will suffice to assure visitors that the assortment will include all that is new, choice, useful, and elegant

Velvet, Silk, and Cloth Cloaks

Of the Alexandrina, Belphor, and other designs. Cashmere, Silk, Tartan, and Merino Shawls, Dress materials of the latest fabrics

Black and Coloured Silks.

All the other departments are replete with a large variety of goods suitable for the present and coming season.

The Boot and Shoe Department,

having been considerably augmented presents an excellent opportunity for obtaining a constant supply of Boots and Shoes for Ladies, Misses, Children, and Infants.

REMATE

Por MARIANO BILLINGHURST.
En su casa Calle Potosi No. 70.

De 30 hermosos Carneros Padres de la Raza Rambouillet, de la Cabaña del Sr. Dn. Manuel Benavente, Cañada de Gaete, en Quilmes, descendientes de Padres de la Cabaña de Su M. I Napoleon III.

16 meses de edad con 10 meses de lana.

El Viernes 14 de Setiembre a las 11 en punto de la mañana se han de rematar sin falta alguna a la mas alta postura y dinero de contado.

30 Carneros padres nacidos todos en el mes de Mayo del año pasado, en la Cabaña del Sr. Dn. Manuel Benavente, y esquilados a fines de Noviembre pasado.

La acceptacion que tuvieron estos animales y su sobresalientes condciones nos hace creer que siendo estos en todo superiores a los anteriores, tengan una buena acojida, entre los interesados de esta raza.

Ocho dias antes del remato estaran a la vista en casa del Rematador, Potosi No. 70, donde podran ser inspeccionados.

72—xp a15

POR MARIANO BILLINGHURST
En su casa, calle de Potosi N6. 70.

De 31 Carneros Padres y 27 Ovejas, de la pura raza Rambouillet, de la Cabaña del Sr. Roubier Chaussenot, denominada 'La Motte y Ste. Anne,' cerca de Dijon (cote d'Or) venidos en la fragata Lafontaine, á la consignacion de los agentes aquí, Sres. Pedro Guerin é hijo.

El martes 18 de Setiembre, a las 11 en punto de la mañana, se han de rematar sin falta alguna á la mas alta postura y dinero de contado: Los hermosos animales arriba expresados, cuya perfeccion de tipo y condiciones de lana, no dejan nada que desear. Al mismo tiempo, se venderán las tres ovejas que se salvaron del naufragio que sufrió la espedicion que venia el año pasado por el Fenelon.

Recordaremos a los interesados en animales de esta raza que los que vendimos el año de 1864 de esta misma procedencia obtuvieron grande aceptacion y fueron comprados por los Sres. Alzaga, Perez, Fernandez, Rocha, Martinez, Paz y varios otros señores hacendados, estando muy satisfechos de los resultados obtenidos.

Los animales se encuentran a la vista en la Barraca de los Sres. Guerin é hijo, Plaza de Monserrato.

HEALTH TO THE INVALID
BY
HOLLOWAY'S PILLS
LOSS OF APPETITE—LOSS OF STRENGTH—LOSS OF HEALTH.

The marvellous effect of this fine medicine upon the system is such as to immediately rally all the vital functions, the appetite is soon restored, a full flow of spirits quickly follows, the body becomes immensely invigorated with a certainty of restored health: fresh air and a little exercise are necessary to bring about a permanent state of things. Holloway's Pills impart tone and energy to the most delicate constitutions, and in a manner as to astonish all who take them. By their extraordinary virtues they have obtained the largest sale of any medicine in the world.

HEAD, LUNGS, AND STOMACH.

Look to the regularity of the functions of these foundations of vitality. Holloway's Pills restore to order the slightest departure from the proper action, and therefore may be considered as the regulators of the main spring of human life. Apoplexy can always be prevented if the proper action of the bowels be attended to, which this famous medicine never fails to accomplish. Disorders of the head and heart often terminate suddenly and fatally from obstructions in the system, which might generally be prevented by taking small and regular doses of this fine corrective.

No medicine can be so infallibly relied upon for ever coming all obstructions as these Pills. They never fail to restore a healthy action throughout the system. The printed instructions will enable all to correct the first symptoms of disease, and avert many serious maladies. Holloway's Pills soon change the sickly and sallow complexion, thus renewing the bloom of health. To females entering into womanhood, or at the turn of life, these Pills will be found invaluable. They should be taken two or three times a week as a safeguard against dropsy, headaches, palpitations of the heart, and all nervous affections, so distressing at certain periods.

SICK HEADACHE, INDIGESTION OR FOUL STOMACH, AND DISORDERED LIVER.

In such a deranged state of health the food is decomposed instead of being digested, and proves poisonous rather than nutritious. This derangement can be at once set right by a course of these purifying and digestive Pills, which have acquired for themselves an imperishable fame for the mastery they have constantly exercised over the digestive organs. Holloway's Pills increase the appetite regulate the liver, repress biliousness, healthily stimulate the kidneys, and move the bowels in a more wholesome and natural manner than any other medicine.

DISORDERS INCIDENTAL TO CHILDREN.

The liver and stomach of children are, from many causes, often out of order, as they are allowed to eat many things that would disagree with their parents, hence their blood becomes impure, and liable to take any disease that is prevalent, and that in the worst form. One Pill, reduced to a powder, and put into a little water, given occasionally to children of twelve months old, and to those of three or four years, three Pills, and to others of seven years of age, four Pills—will always make children look blooming and healthy. Seventy-five out of every hundred do not reach the age of maturity. Holloway's Pills would not only preserve their health, but save the lives of thousands. Many people foolishly think that children only require a little medicine twice a year.

DROPSY.

This fearful disease often makes its appearance between the ages of forty and fifty, and might generally be prevented by attending regularly to the proper action of the liver and stomach; these organs, at this time of life, have a great tendency to derange, hence, when asthma, dropsy, or disease of the heart often sets in. The blood requires frequent elimination which no other medicine can so effectually perform as these purifying Pills, as they purge gently, and act immediately upon the liver and stomach, and thus remove all obstructions which at the turning point of life always occur. This dangerous period should be closely watched; two doses a week of about six Pills will ward off all dangerous diseases. But in all cases of dropsy the Ointment is a wonderful and sovereign remedy and must be effectually rubbed twice a day into the suffering parts.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague	Female Irregularities	Rheumatism
Asthma	Fevers of all kinds	Retention of Urine
Bilious Complaints	Fits	Scrofula, or King's Evil
Blotches on the Skin	Gout	Sore throats
Bowel Complaints	Head-ache	Stone and Gravel
Colics	Indigestion	Secondary Symptoms
Constipation of the Bowels	Inflammation	Tic-Douloureux
Consumption	Jaundice	Tumours
Debility	Liver Complaints	Ulcers
Dropsy	Lumbago	Venereal Affections
Dysentery	Piles	Worms of all kinds
Erysipelas		Weakness from whatever cause

N.B.—Direction to the guidance of patients in every disorder are affixed to each Pot, and can be had in any language, even in Chinese.

Sold at the Establishment of Professor Holloway 244, Strand, (near Temple Bar,) London and by all respectable Druggists and dealers in Medicine throughout the civilised world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

CONSUMPTION,
Chest Affections, Chronic Cough, General Debility, and Loss of Nervous Power.
DR. CHURCHILL'S
HYPOPHOSPHITES.

The following are the preparations used by most eminent members of the Medical Profession, in every country in the world, for the cure of the above complaints:—

Syrup of Hypophosphite of Soda,
Syrup of Hypophosphite of Lime,
Pills of Hypophosphite of Quinine,
and in cases where ferruginous preparations are required (chlorosis, anemia, etc.,) the
Syrup of Hypophosphite of Iron,
Pills of Hypophosphite of Magnese.

These valuable medicines have saved the lives of many consumptive patients. Even in the third stage their beneficial effects have been manifested frequently. In every instance, however far advanced in the disease, the patient will find a marked improvement, both in local and general symptoms. There will be observed a remarkable increase of nervous power, a better appetite, greater regularity of the bowels, better digestion, less cough, less expectoration, less susceptibility of catching cold, less perspiration at night, etc.

Dr. Churchill's Hypophosphites are sold, with directions for use, at four francs per bottle, in France, by Swann, Pharmacien, 12, Rue Castiglione, Paris.
